THE FIRST FAILURE.
The failure of the Hartford Bank yesterday is to be deplored. First, on account of the stockholders and depositors, and secondly, because it was generally hoped and believed that Arizona would pull through without a single bank failure to record.

It is stated that the assets of the bank are more than ample to pay all liabilities, and as the depositors had nearly all been paid before the bank assigned, it is, perhaps, more in the nature of a liquidation caused by lack of business than a failure. The embarrassment, therefore, to the business community will be slight, and the commercial interests of the city are not likely to suffer.

The other banks of Phoenix, without exception, are as solid as the Rocks of Gibraltar and there is not the slightest occasion for alarm.

Besides, the situation in the east has very materially brightened within the last two weeks and money is now easy in the New York markets. Gold has been coming to this country across the Atlantic in a steady stream for ten days and on the whole the outlook is very reassuring.

Of course, much depends upon the action of congress, but the indications are that the Sherman act cannot be repealed without a substitute, and consequently there will be no serious monetary disturbances.

The renewed confidence of the people is shown by the fact that a very large number of the banks which suspended temporarily have again opened in a better condition than before and that their depositors are hastening to re-deposit their money.

The flurry is as idiotical as it is deplorable. There is no reason why the

whole country should resolve itself into a huge lunatic asylum. There has been no failure of crops, no pestilence, no famine, and no war. The country is prosperous and at peace. We have the greatest country and the most stable government on earth, and we can take care of ourselves.

In this respect the people of Arizona are especially fortunate. A veritable "land flowing with milk and honey!" The ranges covered with cattle, horses and sheep! The valleys waving with alfalfa and grain, dotted with orchards and vineyards! The mountains filled with gold and silver!

There can be no cause for distrust. With plenty to eat and wear we ought to be a contented people.

The city of Phoenix is the most flourishing in the country. The fame of the Salt River Valley has spread over the entire continent. There will be an immigration here this winter that will occupy every available foot of land. There is not a bank nor a business firm in town that is not more than solvent now, and with the coming tide of immigration a most prosperous era is assured.

Let us stop moping! Let us stop talking hard times, but put our shoulder to the wheel, and by helping each other help ourselves and the whole community.

Phoenix is all right! Her banks and her business men are all right! We are all right, and we will get there with both feet!

SACRAMENTO BEE: Mrs. Cleveland is reported as having said that she would never name a child of hers after her husband. These words have been published as coming from her lips:

There shall be no second Grover Cleveland. There was only one George Washington, only one Abraham Lincoln. There shall be one Grover Cleveland.

What tender faith! What perfect trust! What sublime confidence! What a sweet and refreshing example of wifely devotion! But to leave sentiment for prosy sense, it might be said that one Grover Cleveland is about all that even this great American nation can stomach at the present time.

The rather improbable story comes from Illinois that a farmer in that state refused to be bullied by sharpers, even when they assured him he had won \$5000. Past events go to show that Illinois farmers cannot resist temptation in the shape of a bunco man.

COLORADO has solved the problem of giving work to its unemployed, by letting a contract for a big irrigation canal. Not only will it give work to the unemployed, but it will also reclaim thousands of acres of desert land. Colorado is all right.

Outside of the town of Phoenix a humane society is needed in Tucson more than any town in the country.—Tucson Citizen.

The people of Tucson may need a humane society, but we don't know of any service that one would find to perform in Phoenix.

SO FAR THE work of this house and senate has been confined to adjourning. It is surprising to the uninitiated the amount of adjournment it takes to run congress.

It is to be hoped that the weather will be hot enough in Washington to boil down the speeches of the congressmen.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it is so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., L. L. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nerve, the unrivaled brain and nerve food, is prepared on the principle that all nervous and muscular difficulties originate from disorders of the nerve centers. His wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nerve cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs, is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.

Sold by druggists everywhere.

AN ELEPHANT HANGED.

Curious Accident to a Big Brute in a New York Loft.

The death of an elephant by hanging occurred in New York recently at a place where animals of this kind are stored. The beast belonged to J. B. Gaylord and arrived there from Borneo, where it was captured March 16. The animal, according to the New York Post, was four years old, five feet two inches high and about as long, and was quite docile. It was deemed best to keep the beast in a twelve-foot box stall, secured by cleats nailed across the open end to a height of six feet, and wire netting fastened above this. But the elephant tore out the netting, and another foot of cleating was added, secured by wire. The animal then began the operations which resulted fatally. It wrenched loose an end of the uppermost cleats. It then thrust its head into the opening thus made, and somehow climbed up high enough to get all four feet above the floor and the head through the opening. The cleat fell on the neck behind the ears. The animal must then have lost its purchase with its toes on the cleats below and fallen. Its immense weight prevented it from freeing its head, and so it was found in the morning, suspended with its hind legs three inches above the floor, dead from strangulation. It has been sent to a taxidermist, and will adorn some museum.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO.:—DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars, or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it. B. M. JAYLORD, Leslie, Mich.

THE OHIO CHEMICAL CO.:—GENTLEMEN:—Some time ago I sent for \$1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured. Truly yours, MATHEW JOHNSON, P. O. Box 45, PITTSBURGH, PA.

THE OHIO CHEMICAL CO.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four months before writing you, in order to know the cure was permanent. Yours truly, CLEVELAND, OHIO, MRS. HELEN MORRISON.

THE OHIO CHEMICAL CO.:—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part. W. L. LUTEGAT.
